

Ludwin Law Group

(Yearly SEO Campaign Results)

March, 2024 - March, 2025

Case Study

Introduction

Ludwin Law Group established itself as a key partner in maritime law with its comprehensive approach to disputes that navigated alternative dispute resolution (ADR) such as arbitration and mediation—solutions that can be more efficient and far less expensive than bringing cases to court. Building on this success, the firm decided to expand into additional practice areas and saw the need to build a stronger online presence for marketing and building the firm's reputation.

Blue Ocean Global Technology assisted Ludwin Law with a thorough SEO campaign and establishing a strong online presence. Our campaign transformed its online visibility, attracting a wider audience and propelling the firm toward a multi-practice future.

The Challenges

SEO Challenges

Ludwin Law had a limited online presence and the firm's website lacked strategic search engine optimization (SEO), hindering organic search visibility.

Target Expansion

As the firm wanted to expand beyond maritime law, it needed to target new audiences online with relevant keywords.

Online Reputation

Establishing a strong online reputation was crucial in efforts to attract new clients.

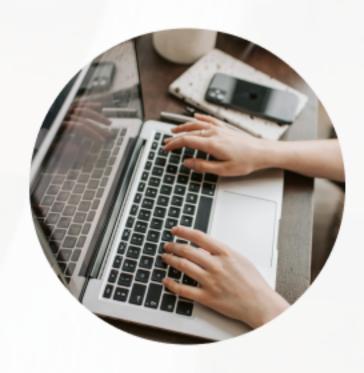

Our SEO Strategy

We conducted an in-depth analysis of relevant keywords and selected a strategic mix of local and national keywords targeting both maritime law, internet defamation, mediation, and the firm's new legal specializations.
