About Me

Experienced Full Stack Web Developer with 4 years of expertise in front-end and back-end development. Proficient in JavaScript (ES6), Node.js, HTML5, CSS3, React, Next.js, TypeScript, Docker, and RESTful APIs. Passionate about voluntary work and skilled in project management, teamwork, and customer relations. Constantly staying up-to-date with emerging technologies, I deliver cutting-edge solutions that align with the evolving digital landscape. Detail-oriented and committed to excellence, I pride myself on delivering high-quality code that exceeds expectations. Let's connect and create remarkable web experiences that drive business growth.

Work Experience

Full Stack Developer, Poshtextiles

May, 2022 - Present

- PoshTextiles American base company i built the logistics management system akin to Microsoft Business Dynamics. As a Full Stack Developer, I played a key role in utilizing JavaScript extensively, accounting for 99.9% of the project. Leveraging Microsoft APIs, I seamlessly integrated data to facilitate the global export of cloth by PoshTextiles. My system efficiently manages warehouse operations, encompassing shipment creation, checking, picking, packing, and shipping. By integrating FedEx, UPS, and STAMP shipping company APIs, I streamlined the shipping process. The system includes live address validation and supports printing of labels. Additionally, I implemented payment integration between two companies involved in the process. PoshTextiles now enjoys a comprehensive logistics solution tailored to their needs

- React
- Material UI
- Redux-toolkit
- Node.js
- Express.js
- FedEx
- UPS
- Stampc
- Authorize.Net

Full Stack Developer, Digital Media Flow LLC

Mar, 2020 - Apr, 2022 2 years 1 month

- Digital Media based in New York .From frontend to Full Stack Project Lead, my journey in digital media has been a captivating adventure. I started by crafting visually appealing interfaces and grew into seamlessly integrating frontend and backend technologies. As a team member and leader, I delivered exceptional results for clients, combining cutting-edge technologies and fostering innovation. With unwavering commitment and a passion for excellence, I continue to push boundaries and create captivating digital experiences.

- React, Styled Components
- Redux-toolkit
- Node.js
- Docker / Heroku
- Used Figma for design and UX work

Full Stack Developer, Fiverr

Mar, 2020 - Present

- Its 2nd largest Freelance base Company .On Fiverr With a 5-star rating in communication, order delivery, and programming skill, I am a freelance Full Stack Web Developer with a successful track record on Fiverr. Having completed over 300 orders, I specialize in project development, live bug fixing, and enhancing designs using technologies like Node.js and Redux and React. My attention to detail and efficient troubleshooting skills ensure attractive and flawless websites that exceed client expectations.
- Extensive experience in both frontend and backend development projects on Fiverr
- LProficient in creating dynamic and engaging frontend interfaces
- Expertise in backend technologies such as Node.js, Express, and MongoDB
- Proven track record of successfully delivering frontend and backend projects on time
- Strong problem-solving and troubleshooting skills to ensure smooth project execution
- Committed to providing excellent customer service and exceeding client expectations

Senior React Developer , X logic Solution

Oct, 2018 - Feb, 2020 1 year 3 months

- I have experience as a team lead in various projects at X Logic Solutions, a service-based company. My role involved collaborating with multiple clients and utilizing React to develop solutions. I strived to ensure the projects were executed flawlessly and delivered attractive results.
- Contributed to continuous improvement by generating suggestions and engaging in problem-solving activities to support teamwork
- Diagnosed and troubleshooted various websites for critical clients using updated knowledge of modern technologies and techniques
- Collaborated proactively with the design team and project manager to ensure efficient and timely delivery of significant projects.
- planned website development, converting mockups into usable web presence using HTML, JavaScript, and React Redux, including Material UI coding
- Validated personal coding and third-party code to ensure compliance with internal standards and technical requirements
- Strived to create an attractive and flawless end product

Front-end Developer, Gamica Cloud

Jan, 2017 - Oct, 2018 1 year 9 months

- Gamica Cloud is a Pakistan-based company that collaborates with international and local clients. As a Frontend Developer, I had the privilege of working with a highly professional team to deliver exceptional designs. During my tenure, I gained valuable insights into the company's deep work strategies. I always strive to make my work perfect and attractive, ensuring that it meets the highest standards of professionalism.
